Note:

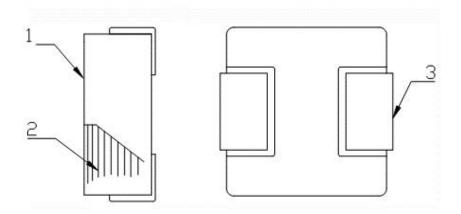

- 1. Operating temperature range -50°C ~150°C (Including self temperature rise)
- 2.Isat for Inductance drop 30% from its value without current.
- 4.The part temperature (ambient + temp rise) should not exceed 150°C under worst case operating conditions. Circuit design 150°C under worst case operating conditions. Component placement, PWB trace size and thickness, airflow and other cooling provisions all affect the part temperature. Part temperature should be verified in the end application.
- 5. Absolute maximum voltage 30VDC
