

## C1812C105M1R1C7186

KPS SMD Comm X7R, Ceramic, 1 uF, 20%, 100 VDC, X7R, 1812-1

General Information Series KPS SMD Comm X7R Style Stacked Chip SMD, MLCC, Stacked, Single Chip, Temperature Description Stable Features Temperature Stable RoHS Yes Termination Tin AEC-Q200 No Component 170 mg Weight 1812-1 Chip Size Shelf Life 78 Weeks MSL 1

| Dimensions |                  |
|------------|------------------|
| L          | 5mm +/-0.5mm     |
| W          | 3.5mm +/-0.5mm   |
| Т          | 2.65mm +/-0.35mm |
| В          | 1.1mm +/-0.3mm   |

| Packaging Specifications |                          |  |  |
|--------------------------|--------------------------|--|--|
| Packaging                | T&R, 180mm, Plastic Tape |  |  |
| Packaging Quantity       | 500                      |  |  |

| Specifications                                                     |                                                    |  |  |
|--------------------------------------------------------------------|----------------------------------------------------|--|--|
| Capacitance                                                        | 1uF                                                |  |  |
| Measurement Condition                                              | 1 kHz 1.0Vrms                                      |  |  |
| Capacitance Tolerance                                              | 20%                                                |  |  |
| Voltage DC                                                         | 100 VDC                                            |  |  |
| Dielectric Withstanding Voltage                                    | 250 VDC                                            |  |  |
| Temperature Range                                                  | -55/+125°C                                         |  |  |
| Temperature Coefficient                                            | X7R                                                |  |  |
| Capacitance Change with Reference to +25°C and 0 VDC Applied (TCC) | 15%, 1kHz 1.0Vrms                                  |  |  |
| Dissipation Factor                                                 | 2.5% 1 kHz 1.0Vrms                                 |  |  |
| Aging Rate                                                         | 3% Loss/Decade Hour:<br>Referee Time is 1000 Hours |  |  |
| Insulation Resistance                                              | 1GOhms                                             |  |  |

Statements of suitability for certain applications are based on our knowledge of typical operating conditions for such applications, but are not intended to constitute - and we specifically disclaim - any warranty concerning suitability for a specific customer application or use. This Information is intended for use only by customers who have the requisite experience and capability to determine the correct products for their application. Any technical advice inferred from this Information or otherwise provided by us with reference to the use of our products is given gratis, and we assume no obligation or liability for the advice given or results obtained.
