

## Introducing Corcom FB Series

TE Connectivity has launched the new Corcom FB power line filter series. The FB Series power line filters are specially designed for lighting devices, fluorescent lamp and related lighting ballasts but are also suitable for applications requiring 277 VAC or 277 VDC. The compact size of this filter allows installation in most standard lighting tracks. Current ratings range from .5A to 5A. The new FB Series offers good attenuation in the range of 100kHz to 30MHz. These products are UL listed to UL 935, the industry standard for florescent ballasts.
