

# VLWR9930, VLWR9931, VLWR9932, VLWR9933

# **Vishay Semiconductors**

# **TELUX LED**

## DESCRIPTION

The TELUX series is a clear, non diffused LED for applications where supreme luminous flux is required. It is designed in an industry standard 7.62 mm square package utilizing highly developed super bright, AllnGaP technology. The supreme heat dissipation of TELUX allows applications at high ambient temperatures.

All packing units are binned for luminous flux, forward voltage, and color to achieve the most homogeneous light appearance in application.

## PRODUCT GROUP AND PACKAGE DATA

- Product group: LED
- Package: TELUX
- Product series: power

SAE and ECE color requirements for automobile application are available for color red.

- Angle of half intensity: ± 45°

# **FEATURES**

- High luminous flux
- Supreme heat dissipation: R<sub>thJP</sub> is 90 K/W
- High operating temperature:  $T_{amb} = -40 \ ^{\circ}C \ to +110 \ ^{\circ}C$
- Meets SAE and ECE color requirements for the automobile industry for color red
- Packed in tubes for automatic insertion
- · Luminous flux, forward voltage, and color categorized for each tube
- Small mechanical tolerances allow precise usage of external reflectors or lightguides
- · Compatible with wave solder processes according to CECC 00802
- ESD-withstand voltage: up to 2 kV according to JESD 22-A114-B
- AEC-Q101 gualified
- · Material categorization: for definitions of compliance please see www.vishay.com/doc?99912

# APPLICATIONS

- Exterior lighting
- Tail-, stop-, and turn signals of motor vehicles
- Traffic signals and signs

### Note

 Luminous flux is tested at a current pulse duration of 25 ms and an accuracy of ± 11 %.

The above type numbers represent the order groups which include only a few brightness groups. Only one group will be shipped on each tube (there will be no mixing of two groups on each tube).

In order to ensure availability, single brightness groups will not be orderable.

In a similar manner for colors where wavelength groups are measured and binned, single wavelength groups will be shipped in any one tube.

In order to ensure availability, single wavelength groups will not be orderable.
