# High Performance Generation 5.0 Schottky Rectifier, 10 A

VS-10WT10FN

| PRODUCT SUMMARY                  |                                       |  |  |  |
|----------------------------------|---------------------------------------|--|--|--|
| Package                          | I-PAK (TO-251AA),<br>D-PAK (TO-252AA) |  |  |  |
| I <sub>F(AV)</sub>               | 10 A                                  |  |  |  |
| $V_{R}$                          | 100 V                                 |  |  |  |
| V <sub>F</sub> at I <sub>F</sub> | 0.66 V                                |  |  |  |
| I <sub>RM</sub> max.             | 4 mA at 125 °C                        |  |  |  |
| T <sub>J</sub> max.              | 175 °C                                |  |  |  |
| Diode variation                  | Single die                            |  |  |  |
| E <sub>AS</sub>                  | 54 mJ                                 |  |  |  |

VS-10UT10

#### **FEATURES**

- Very low forward voltage drop
- Extremely low reverse leakage
- Optimized V<sub>F</sub> vs. I<sub>B</sub> trade off for high efficiency

RoHS

- Increased ruggedness for reverse avalanche capability
- RBSOA available
- Negligible switching losses
- Submicron trench technology
- Compliant to RoHS Directive 2002/95/EC
- Designed and qualified according to JEDEC-JESD47

#### **APPLICATIONS**

- High efficiency SMPS
- · High frequency switching
- Output rectification
- Reverse battery protection
- Freewheeling
- DC/DC systems
- Increased power density systems

| MAJOR RATINGS AND CHARACTERISTICS |   |             |       |  |  |  |
|-----------------------------------|---|-------------|-------|--|--|--|
| SYMBOL                            | CHARACTERISTICS                           | VALUES      | UNITS |  |  |  |
| V <sub>RRM</sub>                  |   | 100         | V     |  |  |  |
| V <sub>F</sub>                    | 10 Apk, T <sub>J</sub> = 125 °C (typical) | 0.615       | V     |  |  |  |
| T <sub>J</sub>                    | Range                                     | - 55 to 175 | °C    |  |  |  |

| VOLTAGE RATINGS            |         |                        |                          |       |
|----------------------------|---------|------------------------|--------------------------|-------|
| PARAMETER                  | SYMBOL  | TEST CONDITIONS        | VS-10UT10<br>VS-10WT10FN | UNITS |
| Maximum DC reverse voltage | $V_{R}$ | T <sub>J</sub> = 25 °C | 100                      | V     |

| ABSOLUTE MAXIMUM RATINGS                            |                    |  |   |   |       |
|---|--------------------|--|---|---|-------|
| PARAMETER   | SYMBOL             | TEST CONDITIONS  |   | VALUES                                    | UNITS |
| Maximum average forward current                     | I <sub>F(AV)</sub> | 50 % duty cycle at T <sub>C</sub> = 159 °C, rectangular waveform   |   | 10  | А     |
| Maximum peak one cycle non-repetitive surge current | I <sub>FSM</sub>   | 5 µs sine or 3 µs rect. pulse  | Following any rated load condition and with rated V <sub>RRM</sub> applied <sup>(1)</sup> | 610                                       | А     |
|   |                    | 10 ms sine or 6 ms rect. pulse   |   | 110                                       |       |
| Non-repetitive avalanche energy                     | E <sub>AS</sub>    | T <sub>J</sub> = 25 °C, I <sub>AS</sub> = 3 A, L = 12 mH   |   | 54  | mJ    |
| Repetitive avalanche current                        | I <sub>AR</sub>    | Limited by frequency of operation and time pulse duration so that $T_J < T_J max$ . $I_{AS}$ at $T_J max$ . as a function of time pulse (see fig. 8) |   | I <sub>AS</sub> at<br>T <sub>J</sub> max. | А     |

#### Note

(1) Measured connecting 2 anode pins

| ELECTRICAL SPECIFICATIONS      |                                |  |                                       |       |        |       |
|--------------------------------|--------------------------------|--|---------------------------------------|-------|--------|-------|
| PARAMETER                      | SYMBOL                         | TEST CONDITIONS  |                                       | TYP.  | MAX.   | UNITS |
|                                |                                | 5 A  | T <sub>J</sub> = 25 °C                | 0.630 | -      | - V   |
|                                |                                | 10 A   |                                       | 0.735 | 0.810  |       |
| Forward voltage drop           | V <sub>FM</sub> (1)(2)         | 20 A   |                                       | 0.840 | 0.890  |       |
|                                | V <sub>FM</sub> (·/(=)         | 5 A  | T <sub>J</sub> = 125 °C               | 0.530 | -      |       |
|                                |                                | 10 A   |                                       | 0.615 | 0.660  |       |
|                                |                                | 20 A   |                                       | 0.730 | 0.770  |       |
| Reverse leakage current        | I <sub>RM</sub> <sup>(1)</sup> | T <sub>J</sub> = 25 °C                                       | V <sub>R</sub> = Rated V <sub>R</sub> | -     | 50     | μA    |
|                                |                                | T <sub>J</sub> = 125 °C                                      |                                       | -     | 4      | mA    |
| Junction capacitance           | C <sub>T</sub>                 | $V_R = 5 V_{DC}$ (test signal range 100 kHz to 1 MHz), 25 °C |                                       | 400   | -      | pF    |
| Series inductance              | L <sub>S</sub>                 | Measured lead to lead 5 mm from package body                 |                                       | 8.0   | -      | nH    |
| Maximum voltage rate of change | dV/dt                          | Rated V <sub>R</sub>   |                                       | -     | 10 000 | V/µs  |

#### Notes

- $^{(1)}\,$  Pulse width < 300 µs, duty cycle < 2 %
- (2) Only 1 anode pin connected

| THERMAL - MECHANICAL SPECIFICATIONS            |                                   |                  |             |       |

#### **ORDERING INFORMATION TABLE**

**Device code** 

1 - Vishay Semiconductors product

Current rating (10 A)

3 - Package:

• U = I-PAK

•W=D-PAK

4 - T = Trench

5 - Voltage code (100 V)

6 - TO-252AA (D-PAK)

7 - D-PAK, I-PAK:

None = Tube (75 pieces)

D-PAK only:

• TR = Tape and reel

• TRL = Tape and reel (left oriented)

• TRR = Tape and reel (right oriented)

### **Legal Disclaimer Notice**

Vishay

### **Disclaimer**

ALL PRODUCT, PRODUCT SPECIFICATIONS AND DATA ARE SUBJECT TO CHANGE WITHOUT NOTICE TO IMPROVE RELIABILITY, FUNCTION OR DESIGN OR OTHERWISE.

Vishay Intertechnology, Inc., its affiliates, agents, and employees, and all persons acting on its or their behalf (collectively, "Vishay"), disclaim any and all liability for any errors, inaccuracies or incompleteness contained in any datasheet or in any other disclosure relating to any product.

Vishay makes no warranty, representation or guarantee regarding the suitability of the products for any particular purpose or the continuing production of any product. To the maximum extent permitted by applicable law, Vishay disclaims (i) any and all liability arising out of the application or use of any product, (ii) any and all liability, including without limitation special, consequential or incidental damages, and (iii) any and all implied warranties, including warranties of fitness for particular purpose, non-infringement and merchantability.

Statements regarding the suitability of products for certain types of applications are based on Vishay's knowledge of typical requirements that are often placed on Vishay products in generic applications. Such statements are not binding statements about the suitability of products for a particular application. It is the customer's responsibility to validate that a particular product with the properties described in the product specification is suitable for use in a particular application. Parameters provided in datasheets and/or specifications may vary in different applications and performance may vary over time. All operating parameters, including typical parameters, must be validated for each customer application by the customer's technical experts. Product specifications do not expand or otherwise modify Vishay's terms and conditions of purchase, including but not limited to the warranty expressed therein.

Except as expressly indicated in writing, Vishay products are not designed for use in medical, life-saving, or life-sustaining applications or for any other application in which the failure of the Vishay product could result in personal injury or death. Customers using or selling Vishay products not expressly indicated for use in such applications do so at their own risk. Please contact authorized Vishay personnel to obtain written terms and conditions regarding products designed for such applications.

No license, express or implied, by estoppel or otherwise, to any intellectual property rights is granted by this document or by any conduct of Vishay. Product names and markings noted herein may be trademarks of their respective owners.

## **Material Category Policy**

Vishay Intertechnology, Inc. hereby certifies that all its products that are identified as RoHS-Compliant fulfill the definitions and restrictions defined under Directive 2011/65/EU of The European Parliament and of the Council of June 8, 2011 on the restriction of the use of certain hazardous substances in electrical and electronic equipment (EEE) - recast, unless otherwise specified as non-compliant.

Please note that some Vishay documentation may still make reference to RoHS Directive 2002/95/EC. We confirm that all the products identified as being compliant to Directive 2002/95/EC conform to Directive 2011/65/EU.

Vishay Intertechnology, Inc. hereby certifies that all its products that are identified as Halogen-Free follow Halogen-Free requirements as per JEDEC JS709A standards. Please note that some Vishay documentation may still make reference to the IEC 61249-2-21 definition. We confirm that all the products identified as being compliant to IEC 61249-2-21 conform to JEDEC JS709A standards.
