| Min. Capacitance (pF)     | 800            | 600    | 400    | 500        |  |  |  |
| Max. Capacitance (pF)     | 2500           | 1500   | 1200   | 1200       |  |  |  |
| Mounting                  | Screw terminal |        |        |            |  |  |  |

## MATERIAL

Capacitor elements made from class 1 ceramic dielectric with noble metal electrodes.

Connection terminals:

made from copper / brass, silver plated.

For higher feed-through current, an additional feed-through conductor must be provided.

## FINISH

Capacitor body completely protective lacquered. The contoured insulating rims are additionally glazed.

## MARKING

Type designator, capacitance value and tolerance, rated peak voltage, ceramic material code, production date code, manufacturer logo

## FEATURES

- Geometry minimizes inductance
- Wide range of capacitance values
- High feed-through currents

## APPLICATIONS

Filtering purposes in industrial and medical RF power equipment, where high voltages and high feed-through currents are required.

#### CAPACITANCE RANGE

400 pF to 2.5 nF

## CAPACITANCE TOLERANCE

± 20 %; ± 10 %; ± 5 %

## **CERAMIC DIELECTRICS**

- R42 (TCC 250 ppm/K)
- R85 (TCC 750 ppm/K)

## RATED VOLTAGE

- 8 kVp
- 10 kVp
- 13 kV<sub>p</sub>
- 16 kVp

## **DIELECTRIC STRENGTH TEST**

200 % of rated AC voltage (50 Hz, 5 minutes)

## **DISSIPATION FACTOR**

Max. 0.05 % Measuring frequencies: 1 MHz (< 1 nF); 300 kHz or 100 kHz (≥ 1 nF)

## INSULATION RESISTANCE

Min. 10 000 MΩ (at 25 °C)

## **OPERATING TEMPERATURE RANGE**

-55 °C to +100 °C

| DWA45150WL122##BJ1                  | R85     | 1200                   |  |   |   |   |  |  |

#### Notes

## 14<sup>th</sup> to 15<sup>th</sup> digit: capacitance tolerance code  $\pm$  20 % = 38,  $\pm$  10 % = 36,  $\pm$  5 % = 33

<sup>(1)</sup> The surface temperature during operation must not exceed +100 °C

<sup>(2)</sup> DC or low frequency RMS current (< 20 kHz)

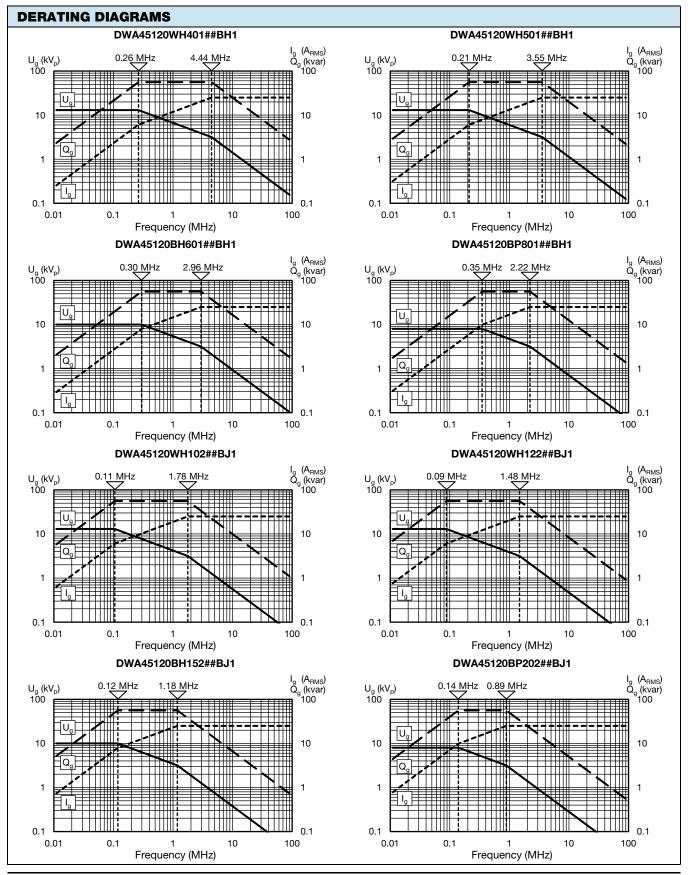

#### **MOUNTING GUIDELINES**

- The connection to one electrode must be flexible in order to prevent the generation of physical force which could damage the capacitor elements. Such forces are often generated by the dimensional differences resulting from the normal physical tolerances of these components.
- The capacitor elements must not be used as a mechanical support for other devices or components.

## Disclaimer

ALL PRODUCT, PRODUCT SPECIFICATIONS AND DATA ARE SUBJECT TO CHANGE WITHOUT NOTICE TO IMPROVE RELIABILITY, FUNCTION OR DESIGN OR OTHERWISE.

Vishay Intertechnology, Inc., its affiliates, agents, and employees, and all persons acting on its or their behalf (collectively, "Vishay"), disclaim any and all liability for any errors, inaccuracies or incompleteness contained in any datasheet or in any other disclosure relating to any product.

Vishay makes no warranty, representation or guarantee regarding the suitability of the products for any particular purpose or the continuing production of any product. To the maximum extent permitted by applicable law, Vishay disclaims (i) any and all liability arising out of the application or use of any product, (ii) any and all liability, including without limitation special, consequential or incidental damages, and (iii) any and all implied warranties, including warranties of fitness for particular purpose, non-infringement and merchantability.

Statements regarding the suitability of products for certain types of applications are based on Vishay's knowledge of typical requirements that are often placed on Vishay products in generic applications. Such statements are not binding statements about the suitability of products for a particular application. It is the customer's responsibility to validate that a particular product with the properties described in the product specification is suitable for use in a particular application. Parameters provided in datasheets and / or specifications may vary in different applications and performance may vary over time. All operating parameters, including typical parameters, must be validated for each customer application by the customer's technical experts. Product specifications do not expand or otherwise modify Vishay's terms and conditions of purchase, including but not limited to the warranty expressed therein.
