

# Standard Recovery Diodes, (Stud Version), 85 A

DO-203AB (DO-5)

| PRODUCT SUMMARY    |      |  |  |
|--------------------|------|--|--|
| I <sub>F(AV)</sub> | 85 A |  |  |

#### **FEATURES**

- High surge current capability
- · Stud cathode and stud anode version
- · Leaded version available
- Types up to 1600 V V<sub>RRM</sub>
- Compliant to RoHS directive 2002/95/EC
- Designed and qualified for industrial level

#### **TYPICAL APPLICATIONS**

- Battery chargers
- Converters
- · Power supplies
- · Machine tool controls
- Welding

#### Notes

- (1) Available only for 88HF
- (2) Recommended for pass-through holes
- (3) Recommended for holed threaded heatsinks

Document Number: 93529 Revision: 25-May-09

It is the customer's responsibility to validate that a particular product with the properties described in the product specification is suitable for use in a particular application. Parameters provided in datasheets and/or specifications may vary in different applications and performance may vary over time. All operating parameters, including typical parameters, must be validated for each customer application by the customer's technical experts. Product specifications do not expand or otherwise modify Vishay's terms and conditions of purchase, including but not limited to the warranty expressed therein.

Except as expressly indicated in writing, Vishay products are not designed for use in medical, life-saving, or life-sustaining applications or for any other application in which the failure of the Vishay product could result in personal injury or death. Customers using or selling Vishay products not expressly indicated for use in such applications do so at their own risk. Please contact authorized Vishay personnel to obtain written terms and conditions regarding products designed for such applications.

No license, express or implied, by estoppel or otherwise, to any intellectual property rights is granted by this document or by any conduct of Vishay. Product names and markings noted herein may be trademarks of their respective owners.

### **Material Category Policy**

Vishay Intertechnology, Inc. hereby certifies that all its products that are identified as RoHS-Compliant fulfill the definitions and restrictions defined under Directive 2011/65/EU of The European Parliament and of the Council of June 8, 2011 on the restriction of the use of certain hazardous substances in electrical and electronic equipment (EEE) - recast, unless otherwise specified as non-compliant.

Please note that some Vishay documentation may still make reference to RoHS Directive 2002/95/EC. We confirm that all the products identified as being compliant to Directive 2002/95/EC conform to Directive 2011/65/EU.

Vishay Intertechnology, Inc. hereby certifies that all its products that are identified as Halogen-Free follow Halogen-Free requirements as per JEDEC JS709A standards. Please note that some Vishay documentation may still make reference to the IEC 61249-2-21 definition. We confirm that all the products identified as being compliant to IEC 61249-2-21 conform to JEDEC JS709A standards.
