Vishay Siliconix

E Series Power MOSFET

PRODUCT SUMMARY					
V _{DS} (V) at T _J max.	850				
R _{DS(on)} typ. (Ω) at 25 °C	$V_{GS} = 10 V$	1.1			
Q _g max. (nC)	32				
Q _{gs} (nC)	4				
Q _{gd} (nC)	6				
Configuration	Single				

FEATURES

- Low figure-of-merit (FOM) Ron x Qa
- Low input capacitance (Ciss)
- · Reduced switching and conduction losses
- Ultra low gate charge (Q_q)
- Avalanche energy rated (UIS)
- · Material categorization: for definitions of compliance please see www.vishay.com/doc?99912

APPLICATIONS

- · Server and telecom power supplies
- Switch mode power supplies (SMPS)
- Power factor correction power supplies (PFC)
- Lighting
 - High-intensity discharge (HID)
 - Fluorescent ballast lighting
- Industrial
- Welding
- Induction heating
- Motor drives
- Battery chargers
- Renewable energy
- Solar (PV inverters)

ORDERING INFORMATION	
Package	TO-220AB
Lead (Pb)-free and halogen-free	SiHP4N80E-GE3

ABSOLUTE MAXIMUM RATINGS (T _C	= 25 °C, unle	ess otherwis	se noted)			
PARAMETER		SYMBOL	LIMIT	UNIT		
Drain-source voltage		V _{DS}	800	M		
Gate-source voltage			V _{GS}	± 30	V	
Continuous drain current (T _J = 150 °C)	V at 10 V	T _C = 25 °C T _C = 100 °C	I	4.3		
	V _{GS} at 10 V	$T_C = 100 \ ^\circ C$	ID	2.7	А	
Pulsed drain current ^a		I _{DM}	11	1		
Linear derating factor			0.56	W/°C		
Single pulse avalanche energy b		E _{AS} 56		mJ		
Maximum power dissipation		PD	69	W		
Operating junction and storage temperature range		T _J , T _{stg}	-55 to +150	°C		
Drain-source voltage slope	T _J = 125 °C		dv/dt	70	V/ns	
Reverse diode dv/dt ^d	·			0.3		
Soldering recommendations (peak temperature) ^c	For 10 s			300	°C	

Notes

a. Repetitive rating; pulse width limited by maximum junction temperature

b. V_{DD} = 140 V, starting T_J = 25 °C, L = 28.2 mH, R_g = 25 Ω , I_{AS} = 2.0 A

c. 1.6 mm from case

d. $I_{SD} \leq I_D, \, di/dt$ = 100 A/µs, starting T_J = 25 °C

Notes

a. $C_{oss(er)}$ is a fixed capacitance that gives the same energy as C_{oss} while V_{DS} is rising from 0 V to 480 V V_{DSS}

b. Coss(tr) is a fixed capacitance that gives the same charging time as Coss while VDS is rising from 0 V to 480 V VDSS

Disclaimer

ALL PRODUCT, PRODUCT SPECIFICATIONS AND DATA ARE SUBJECT TO CHANGE WITHOUT NOTICE TO IMPROVE RELIABILITY, FUNCTION OR DESIGN OR OTHERWISE.

Vishay Intertechnology, Inc., its affiliates, agents, and employees, and all persons acting on its or their behalf (collectively, "Vishay"), disclaim any and all liability for any errors, inaccuracies or incompleteness contained in any datasheet or in any other disclosure relating to any product.

Vishay makes no warranty, representation or guarantee regarding the suitability of the products for any particular purpose or the continuing production of any product. To the maximum extent permitted by applicable law, Vishay disclaims (i) any and all liability arising out of the application or use of any product, (ii) any and all liability, including without limitation special, consequential or incidental damages, and (iii) any and all implied warranties, including warranties of fitness for particular purpose, non-infringement and merchantability.

Statements regarding the suitability of products for certain types of applications are based on Vishay's knowledge of typical requirements that are often placed on Vishay products in generic applications. Such statements are not binding statements about the suitability of products for a particular application. It is the customer's responsibility to validate that a particular product with the properties described in the product specification is suitable for use in a particular application. Parameters provided in datasheets and / or specifications may vary in different applications and performance may vary over time. All operating parameters, including typical parameters, must be validated for each customer application by the customer's technical experts. Product specifications do not expand or otherwise modify Vishay's terms and conditions of purchase, including but not limited to the warranty expressed therein.

Except as expressly indicated in writing, Vishay products are not designed for use in medical, life-saving, or life-sustaining applications or for any other application in which the failure of the Vishay product could result in personal injury or death. Customers using or selling Vishay products not expressly indicated for use in such applications do so at their own risk. Please contact authorized Vishay personnel to obtain written terms and conditions regarding products designed for such applications.

No license, express or implied, by estoppel or otherwise, to any intellectual property rights is granted by this document or by any conduct of Vishay. Product names and markings noted herein may be trademarks of their respective owners. 单击下面可查看定价,库存,交付和生命周期等信息
