

Vishay Custom Magnetics

Haptic Feedback Actuator

LINKS TO ADDITIONAL RESOURCES

FEATURES

 Solenoid construction provides high impulse vibration for clear tactile feedback in noisy environments

ROHS COMPLIANT HALOGEN FREE

GREEN

(5-2008)

 This IHPT device can drive up to a 0.5 kg load to 6 g's of acceleration with a 12 V, 5 ms pulse using Vishay's spring return test fixture

 Standard lead termination is dipped 100 % tin solder; customer specific connectors available upon request

- upon request
 Compact, two piece construction with mounting holes; stationary "U" core and moving "I-bar" for easy implementation in touch screen or touch button
- application
 Material categorization: for definitions of compliance please see www.vishav.com/doc?99912

APPLICATIONS

- Industrial touch screens and displays for appliances, building automation and control, factory automation and control, and electronic point of sale
- Medical touch screens for human-machine interfaces for healthcare monitoring, diagnostic, surgical, and treatment equipment
- Switch / touch panels requiring tactile feedback upon actuation

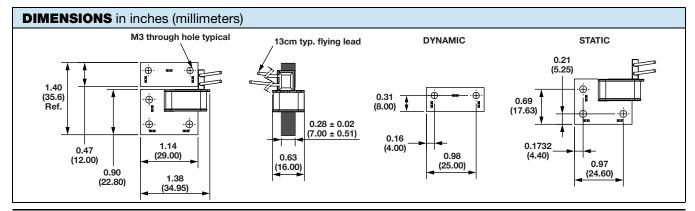

STANDARD ELECTRICAL SPECIFICATIONS							
PART NUMBER	FORCE COEFFICIENT (1)	RESPONSE TIME TYP. (ms)	L ₀ INDUCTANCE ± 20 % AT 1 kHz, 0.25 V, 0 A (mH)	DCR TYP. (Ω)	DCR MAX. (Ω)	DIELECTRIC WITHSTAND VOLTAGE COIL TO CORE (V _{DC})	
IHPT1411AFEBR73AB0	0.73	5.0	1.8	0.95	1.09	150	

Notes

- All specifications are referenced to 25 °C ambient, and assume a 0.75 mm (0.030") gap
- Operating temperature range -40 °C to +105 °C
- The part temperature (ambient + temp. rise) should not exceed 105 °C under worst case operating conditions. Circuit design, component
 placement, PWB trace size and thickness, airflow and other cooling provisions all affect the part temperature. Part temperature should be
 verified in the end application
- Rated voltage: 16 V maximum
- (1) Applied force, in newtons, can be estimated by the following equation: $F = FORCE COEFFICIENT \times I_{PK}^2$

MATERIAL				
Core	Laminated steel			
Wire	Copper, PU / PA insulated			
Solder	Hot dip tin			

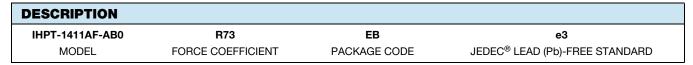

SOLDER COMPOSITION				
Sn	99.3 %			
Cu	0.7 %

Disclaimer

ALL PRODUCT, PRODUCT SPECIFICATIONS AND DATA ARE SUBJECT TO CHANGE WITHOUT NOTICE TO IMPROVE RELIABILITY, FUNCTION OR DESIGN OR OTHERWISE.

Vishay Intertechnology, Inc., its affiliates, agents, and employees, and all persons acting on its or their behalf (collectively, "Vishay"), disclaim any and all liability for any errors, inaccuracies or incompleteness contained in any datasheet or in any other disclosure relating to any product.

Vishay makes no warranty, representation or guarantee regarding the suitability of the products for any particular purpose or the continuing production of any product. To the maximum extent permitted by applicable law, Vishay disclaims (i) any and all liability arising out of the application or use of any product, (ii) any and all liability, including without limitation special, consequential or incidental damages, and (iii) any and all implied warranties, including warranties of fitness for particular purpose, non-infringement and merchantability.

Statements regarding the suitability of products for certain types of applications are based on Vishay's knowledge of typical requirements that are often placed on Vishay products in generic applications. Such statements are not binding statements about the suitability of products for a particular application. It is the customer's responsibility to validate that a particular product with the properties described in the product specification is suitable for use in a particular application. Parameters provided in datasheets and / or specifications may vary in different applications and performance may vary over time. All operating parameters, including typical parameters, must be validated for each customer application by the customer's technical experts. Product specifications do not expand or otherwise modify Vishay's terms and conditions of purchase, including but not limited to the warranty expressed therein.
